NEEP Summit 2022

ScalingUP

June 13-15 | Baltimore Harbor East

NEEP Summit | ScalingUP

We need rapidly deployable solutions that address climate change, provide good-paying local jobs, and accelerate the transition to a just clean energy future. Well that's great, but which policy, program, technology, and tools are already available that can be replicated at scale?

Join us at NEEP Summit 2022: ScalingUP at the Baltimore Waterfront in the city's Harbor East where we will focus on getting to scale with case studies, pathways, and tangible solutions in a collaborative, interactive format. NEEP is bringing energy practitioners, state and local policy makers, utilities, industry leaders, and problem solvers together in a wide range of interactive sessions, small topical breakout working groups, and informal engagement opportunities, to inspire and advance clean, affordable, equitable energy solutions.

Why sponsor?

Leadership

Becoming a sponsor of NEEP Summit 2022: ScalingUP positions your brand as a leader in our industry.

Visibility

Summit sponsors receive visibility with a targeted group of key stakeholders.

Connection

Networking opportunities to build relationships with other industry professionals.
