Nick Sifuentes, Executive Director, Tri-State Transportation Campaign
Joseph Chow, Deputy Director, C2Smart University Transportation Centre, NYU
Chris Snyder, Sr. VP of Expansion / CEO of ViaVan, Via Transportation
Virtual Test Bed for evaluating emerging transportation technologies and operating policies.
The car has been the dominant mode of transport for a century…
…but we’ve reached a breaking point.

Via was founded to address this problem.
Via’s mission is to build and deploy technology to improve public mobility.
Via’s technology is deployed across the globe in partnership with cities, public transit authorities, and corporations.

75+ Deployments

70mm Shared rides

20 Countries
