

2018 NEEP Summit
EE By The Sea: Oceans of Opportunity
October 1-3 / Middletown, RI

Session 1A: Public Policy to Drive Advanced Efficiency in a New Energy Landscape

Moderator: Steve Cowell, E4TheFuture

Mark Kresowik, Sierra Club's Beyond Coal Campaign

Deborah Donovan, Acadia Center

Elephant in the Room

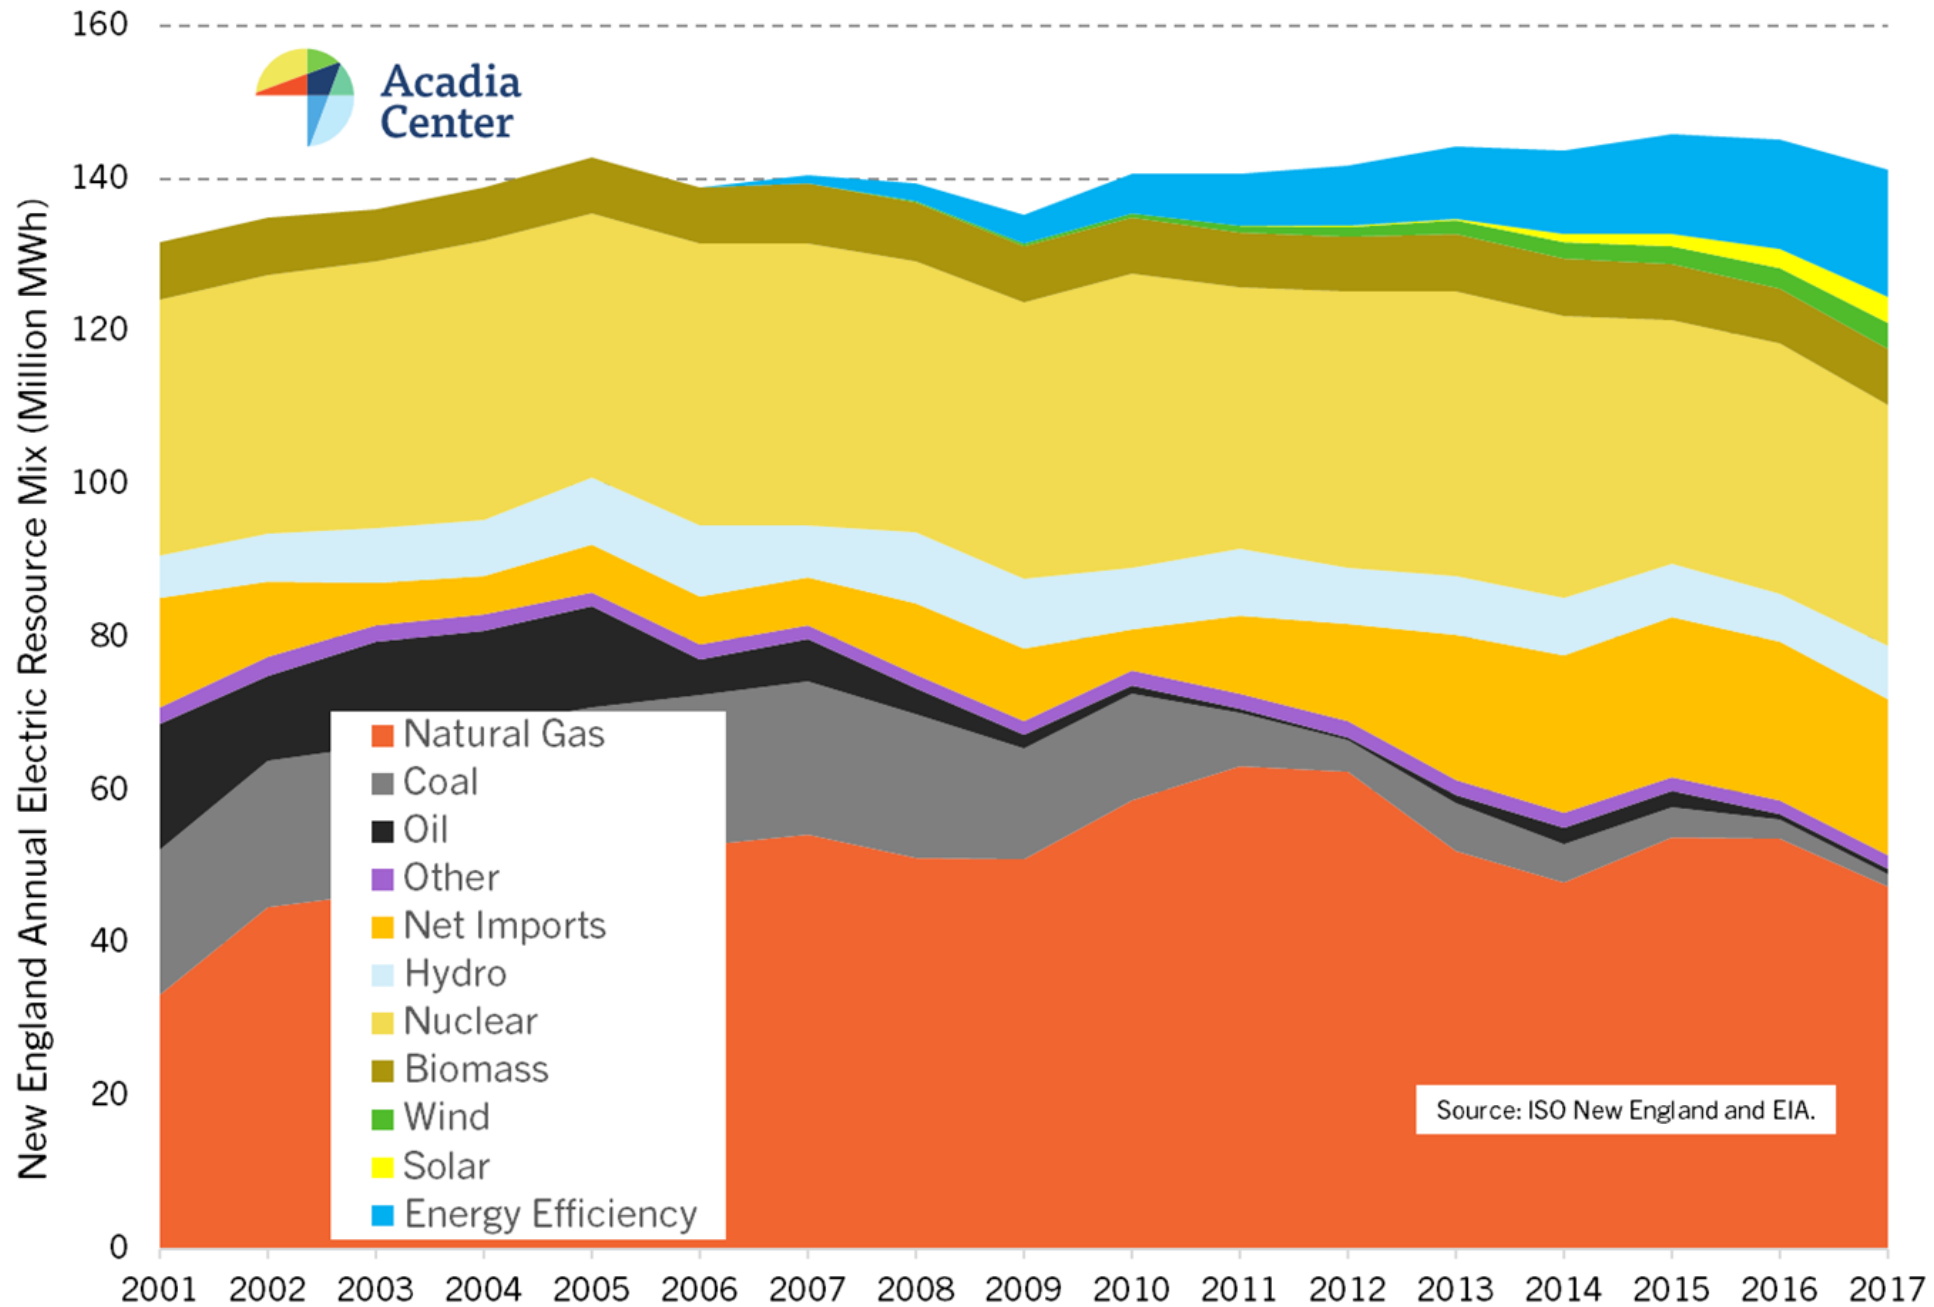

- Technology changes (daily!)
- Winter peak
- Natural Gas safety!!!!
- Ending fuel silos: regulated *and* unregulated
- How to integrate DERs and EE
- Cost-effectiveness – approaches and options: beyond low hanging fruit
- Supplemental EE benefits: health, comfort, O&M, energy poverty...

• Climate

Implementation Challenges

- Government funding vs. regulation vs. market driven investment vs. legislative mandates vs. rate design
- Investment in EE – rules and regs vary
- Role of utilities – private, municipal, coops, vertically integrated, restructured, ISO's, Regional Authorities
- 51 State specific approaches in US plus Federal role (?)
- International lessons and experience
