# Hypothesis

# Workshop Take Aways

- What opportunities and challenges are being discussed for applications of M&V2.0 tools in the industry, our region, and in evaluation
- How can evaluation, research and our experience help
  - Position M&V2.0 in the context of buildings as a grid asset?
  - Make use of M&V2.0 to inform/optimize processes and assess impacts?
  - Enhance credibility and best practices in use of M&V2.0
- What more and what next do we need to evolve our understanding of the role of M&V2.0 ?
