# NEEP Summit

June 2023 | New Haven, CT

# NEEP Summit

NEEP is bringing energy practitioners, state and local policy makers, utilities, industry leaders, and problem solvers together in a wide range of interactive sessions, small topical breakout working groups, and informal engagement opportunities, to inspire and advance clean, affordable, equitable energy solutions.

The topical focus of the 2023 regional gathering will be how states, communities, industry and other partners are approaching the once-in-a-generation opportunity of the Bipartisan Infrastructure Law and the Inflation Reduction Act to accelerate the transition of the building sector. The Summit will highlight how partnerships are accelerating actions that advance energy, health, and community and economic development outcomes, showcasing realistic market, policy, and program solutions that work. By bringing together 250 leaders in energy efficiency, community, state, industry, and advocacy we intend to inspire and contribute to important regional dialogue.

To accomplish these in-person event goals, NEEP needs partners who support our programmatic efforts and share in the investment of market transformation in the Northeast and Mid Atlantic.

# Why Sponsor?

## Leadership

Becoming a sponsor of NEEP Summit 2023 positions your brand as a leader in our industry.

## Visibility

Summit sponsors receive visibility with a targeted group of key stakeholders.

## Connection

Networking opportunities to build relationships with other industry professionals.
