

Bridgeport Transportation Audit

Live Green CT is a 501(c)(3) nonprofit based in Norwalk, CT, dedicated to supporting businesses and municipalities switch to alternative, cleaner fuel. We are a subrecipient of a federal grant called Community-driven Transportation Plans for the Northeast, led by the Northeast Energy Efficiency Partnerships (NEEP). The purpose of this survey is to receive honest impressions from the public of Bridgeport to inform us on how they view electric vehicles. With the goal of completing 100 surveys, we hope to create a comprehensive plan to improve adoption and remove barriers to electrification. The result of this project is to address electric vehicle concerns, support economic growth, and work towards a more sustainable and accessible transportation layout for all in the municipality.

All questions are optional!

1. Do you live in Bridgeport?
2. Do you currently own a car?
3. How many miles a day/week do you drive?
4. What is your impression of electric vehicles?
5. Have you heard about the CHEAPER program?
6. Do you know about the financial incentives for electric vehicles?
7. Do you know the difference in price between a 2024 EV compared to a regular car?
8. Have you ridden in an electric vehicle?
9. Have you driven an electric vehicle?
10. Do you know about the reduced maintenance costs of owning an electric vehicle?
11. Does your employer have workplace charging?
12. Do you have any concerns about charging an electric vehicle? The time it will take to do so? Accessibility to do so?
13. Do you know where to find charging stations in Bridgeport?
14. Have you seen charging stations in Bridgeport?
15. If the price were not a factor, would you consider purchasing an electric vehicle?
16. Are there any models you have seen that would fit your lifestyle?

17. Is there optional demographic information you would like to share: age, gender, race, income, etc.
18. Final questions/comments?
19. Please provide your email if you wish to receive compensation for the completion of this survey:
