

### Northeast Appliance Standards Project Engagement Schedule for DOE's 2013 Rulemakings<sup>1</sup>

Appliance	Stage of Rulemaking (DOE estimated timing) <sup>2</sup>	Project's Anticipated Role	Timing for stakeholders engagement	DOE Final Rule Deadline <sup>3</sup>	Engagement History/Notes
<b>Pumps (Commercial and Industrial)</b>	Framework Document (January, 2013)	NEEP to track rulemaking, consider joint written comments (due May 2)	Q1	August, 2014	Not previously covered
	PTSD (August, 2013)	NEEP to attend Workshop by webinar, Project to consider written comments	Q3	August, 2014	Not previously covered
<b>Fans, Blowers, and Fume Hoods (Commercial and Industrial)</b>	Framework Document (January, 2013)	NEEP to track rulemaking, consider joint written comments (due May 2)	Q1	September, 2014	Not previously covered
	PTSD (September, 2013)	NEEP to attend Workshop by webinar, Project to consider written comments	Q3	September, 2014	Not previously covered
<b>Residential Boilers</b>	Framework Document (February, 2013)	NEEP attended Workshop by webinar, Project submitted regional comments (March 28)	Q1 (provide input/data, review draft comments)	July, 2014 (NOPR due)	Had previously been addressed jointly with Residential Furnaces
<b>General Service Fluorescent Lamps/</b>	Preliminary Analysis (December, 2013)	NEEP to attend Workshop by webinar, to submit	Q2(review draft comments,	June, 2014	Region developed and submitted comments in

<sup>1</sup> For a more complete list of scheduled rulemakings, visit Appliance Standards Awareness Project's (ASAP) [website](#). For more detailed information about the rulemaking status of specific products, visit the DOE's Standards website: [Building Technologies Program: Appliances and Commercial Equipment Standards](#).

<sup>2</sup> Dates in parentheses represent DOE's estimated timing based on their most recent [Regulatory Agenda](#).

<sup>3</sup> May be legally mandated or self imposed by the Department

Appliance	Stage of Rulemaking (DOE estimated timing) <sup>2</sup>	Project's Anticipated Role	Timing for stakeholders engagement	DOE Final Rule Deadline <sup>3</sup>	Engagement History/Notes
Incandescent Reflector Lamps <sup>4</sup>		written comments (due April 15)	provide input)		2011 during Framework Document stage.
Residential Furnaces	NOPR (April, 2014)	Develop regional stakeholder support	Q2-Q4 (contribute to regional campaign)	March, 2015	Long history of regional engagement
Air Handlers (Furnace Fans)	NOPR (August, 2013)	NEEP to attend Workshop by webinar, to consider written comments	Q3 (review draft comments, provide input)	December, 2013	Region developed submitted comments in 2012 during PTSD stage
Electric motors	NOPR (November, 2013) *ASAP Estimate	Project to consider written comments based on proposed standards	Q4	*Overdue Rulemaking December, 2012	NEEP signatory of Advocate-NEMA consensus agreement
Exempted Incandescent Reflector Lamps <sup>5</sup>	NOPR (December, 2013) *ASAP Estimate	Project to consider written comments based on proposed standards	Q4	*Overdue Rulemaking January, 2012	
Yellow shading represents rulemaking stages that have passed estimated or required deadlines. Note that only Final Rule Due dates are legally binding.					
Green shading represents rulemaking stages for which DOE has published documentation.					

<sup>4</sup> DOE is currently prevented from conducting regulatory activities towards the development, adoption or enforcement of any incandescent lighting technology. DOE may separate this rulemaking into two distinct product categories. December estimate reflects [ASAP estimate](#)

<sup>5</sup> DOE is currently prevented from conducting regulatory activities towards the development, adoption or enforcement of any incandescent lighting technology. Does not appear on DOE's Regulatory Agenda for 2013.
