About NEEP

Mission

Accelerate energy efficiency as an essential part of demand-side solutions that enable a sustainable regional energy system

Approach

Overcome markets and transform markets via
Collaboration, Education and Enterprise

Vision

Region embraces **next generation energy efficiency** as a core strategy to meet energy needs in a carbon-constrained world

One of six regional energy efficiency organizations (REEOs) funded by the US Department of Energy (US DOE) to link regions to US DOE guidance, products and programs

What is ENERGY STAR?

- Government Partnership Program
- Established by EPA in 1992 to help address climate change
- Focused on the energy efficiency of:
 - Products
 - Homes
 - Buildings & Industrial Plants
- The national symbol for energy efficiency

Successful Energy Management

Value of Benchmarking

Consistent benchmarking in buildings results in energy savings and improved performance

Connecting Energy Efficiency & Health

Impacts of high performance schools
on...

- Occupant health
- Educational performance
- School funding

NE-CHPS as a guide

High Performance Schools By the Numbers...

Health

- *48.6% of children reported missing one or more days of school due to asthma (CDC)*
 - *32.9% of adults*

Performance

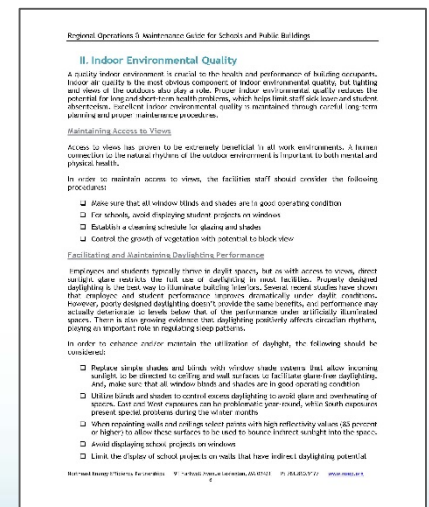

- *Improving ventilation rate by 2 cfm/person, increased the proportion of students passing standardized tests by almost 3%*

Operations and Maintenance Guide

Indoor Environmental Quality

- Enhance Daylighting
 - Direct incoming sunlight to ceiling or walls
 - Light shelves
 - Conduct daylighting workshop
- Maintaining Ventilation System
 - ASHRAE Standard 62.1
 - Critical to occupant health, performance and attendance

RESOURCES

available at www.neep.org

- Street Lighting Benchmarking
- Energy Codes
- Multi-Family
- O & M
- Real Estate Valuation of EE
- Schools
- Street Lighting
- Zero Net Energy
